

Invade 5G™

Seed Inoculant Kit

Invade 5G is a liquid seed inoculant designed to provide plants with greater access to nitrogen during key vegetative stages leading to stronger reproductive stages. Invade 5G kit consists of carbon, carbohydrates, and biologicals (azotobacter, rhizobium) which specifically target plant species that require nitrogen fixation via root nodules. Invade 5G has been especially beneficial for use on soybeans planted behind crops that have high nitrogen usage and in late-planted, double crop situations.

ACTIVE INGREDIENTS

Azotobacter15.6%

Rhizobium6.0%
Min 300,000 CFU/mL

Organic carbon3.0%
Net Weight: 11.1 lbs. (5.03kg)

DIRECTIONS FOR USE:

- Shake each bottle prior to use.
- Pour contents from each bottle into mix tank of treater.
- Input correct rates into metering system based upon flow chart or recommended rates.
- Agitate inside mix tank for one minute before applying.
- Begin normal treatment procedures to apply Invade 5G to seed.

Storage: Store in cool place. Do not let product freeze. Product good for up to two years when unopened.

NET CONTENTS:

- 100 oz, 6.75 lbs (3.06 kg)
- 50 oz, 3.75 lbs (1.70kg)

RATES OF APPLICATION:

- Soybeans: See Flow Rate Chart.
- Cereals: Kit will treat 25, 100 cwt units.
- All other crops: Consult with Biovante or representative.

Caution: Always monitor treatment during and after application. If seed appears to be wet after application then lower usage rate by eight percent from original use rate. Contact Biovante directly if there are still questions or concerns.

Flow Rate Chart	Seeds per pound											
	2,200	2,300	2,400	2,500	2,600	2,700	2,800	2,900	3,000	3,100	3,200	3,300
140,000	7.34	7.05	6.77	6.50	6.25	6.00	5.76	5.53	5.31	5.10	4.90	4.70

Conditions of Sale: The information contained on this label is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from the use of this material. Follow directions carefully. Timing, method of application, weather, crop conditions and other factors are beyond the control of the seller. If there is a question of antagonism with other products, it is best to perform a jar test for compatibility. This product will not burn or damage any citrus, fiber, forage, grain, timber or vegetable crops when used properly according to growth stage. Consult with Biovante™ if there is any question regarding use.

Caution: KEEP OUT OF REACH OF CHILDREN.
